EAT, DRINK, & BE HELPFUL!

Did you know that staying hydrated and eating before your shift helps support brain function and regulate temperature? As we move into the warmer months, keep these tips in mind:

- Pack sturdy snacks that don't need refrigeration, such as beef jerky, nuts, apples, or protein bars, to keep you focused.
- Stay hydrated by sipping water consistently throughout the day, aiming for about 9 cups for women and 13 cups for men daily. Add flavor (lemon/cucumber), eat water-rich foods (watermelon, cucumber), and drink before you feel thirsty to maintain energy and mental focus.

WORK AT PLAYHOUSE SQUARE!

If you are interested in applying for any of the open positions, submit a resume along with a cover letter detailing your qualifications to:
