From the desk of Gina, Volunteer Manager

First off – let me thank you all for your patience in waiting for this Newsletter! We delayed last week to make sure we had alternative pick up times set for everyone remaining to receive their blazer. This week, we temporarily lost our files, they are still being restored and we were thankful we could get this out to you today! Thank you all for your patience in the matter!

- Gina Glorioso Rendall

Copenhagen

We are in need of volunteers for a few upcoming performances of this limited engagement show, presented by Cesear's Forum.

The mystery of an actual meeting between the two great physicists, German Werner Heisenberg and Danish Niels Bohr in 1941 occupied Denmark, is never fully explained. The play is presented fictionally, "inside the heads" of three characters, Bohr's wife Margrethe is also present, as time shifts in the past and they relive their memories and speculations on the subsequent ramifications that define history.

Jungle Book

From the creators of Twenty Thousand Leagues Under the Sea comes a new theatrical adaptation of Rudyard Kipling's Jungle Book, re-imagining the classic stories through modern eyes to transport audiences to the world's jungles. Using a rich soundscape and immersive multimedia, Jungle Book will feature your favorite characters like you've never seen them before and will delve deep into the original themes of the story, and our relationship to the animal kingdom.

Pipeline

In this groundbreaking lyrical drama, Nya—a dedicated inner-city school teacher—sends her own son, Omari, to private school. But when a teacher's questions push a button, Omari pushes back. An altercation ensues, and Nya's plans for Omari's future begin to unravel. Pipeline is a compelling, must-see portrait of the systemic school-to-prison pipeline and the experience of being a parent to a young black man in America.
